Crown Water Heaters proudly present the newest addition to our range of water heaters the

CROWN COMPACT PLUS

10 LITRE AND 15 LITRE ELECTRIC WATER HEATER

A prime example of our constant search for excellence and value!

Features Include:

- 10 and 15 litre sizes in Under and Over sink formats suitable for connecting to conventional taps and most mixers, no need for expensive vented taps
- Two neon indicators: 'Power on' and 'Heating Up'
- On/Off switch
- 2 year all parts warranty
- Robust, heavy duty casing
- Stylish looks, easy clean
- Pre-wired including 1m of cable for connection to a 13amp supply
- Temperature regulation down to 5°C for frost protection
- Nickel plated immersion heater giving added corrosion protection.
- Flanged immersion heater for easy removal/cleaning
- Huge sacrificial anode for long life
- Heavy duty steel tank with high grade glass lining
- Full range of free accessories including: safety valve; wall hangers; screws & rawl plugs; nylon adapters for protection against electrolytic action with washers (for improved sealing) and comprehensive instructions
- Accurate high limit thermostat to eliminate false 'lock out'

If an expansion vessel is needed, Crown can provide a very competitively priced Kit 'A' 2L Expansion Vessel and Check Valve or a Kit 'G/A' with pre-assembled Mounting Bracket saving up to an hour on installation - Ideal for professionals and first time installers alike. All at a very competitive price and backed up by our first class customer service and technical help line.
